FoundryCut Men's Ring Sizer

Print at 100% (Actual size). Do not use Fit to page.

Before you use it, check the print with a ruler and a bank card. If either check is off, reprint at 100%.

1 inch (25.4 mm)

50 mm

Each bar should measure
exactly its label with a ruler.

A bank card should match this box

85.60 x 53.98 mm (ISO/IEC 7810 ID-1)

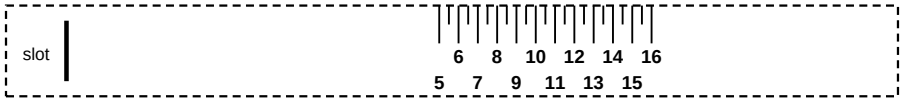

Method 1. Match a ring that fits

Lay a ring that fits on the circles. Your size is the circle whose black line you can just see all the way around inside the ring. The inner edge of each line is the true inside diameter.

Method 2. Finger strip

Cut out along the outer line and cut the slot. Wrap the strip around the base of the finger, feed the end through the slot and read the size at the slot edge. Check that a ring of that size would slide over the knuckle.

US sizes. Short ticks are half sizes.

US ring scale: each full size adds 0.032 in of inside diameter. www.FoundryCut.com
